**Teachers • Teacher-Trainers • Co-ordinators
Incharges • Headmistress • Vice-Principals**

ABOUT CPD Online

This program is designed to empower aspiring/in-service teachers as well as school administrators towards creating an active learning environment inside the classrooms. It is an online program focused on pedagogical skills which are significant to cater the needs of 21st century learners.

This will be accomplished through 15 online interactive sessions spread over 4 months by creating personalised learning environment. Learners will also get significant exposure to technological tools which can be embedded in their lesson plans to create interesting and enthusing environment for learning.

Programme Co-ordinator
at +91 8800542932.

MANDATORY

Candidate should have **uninterrupted internet facility** with speed of at least 30 MBPS and a Laptop for personal use.

TESTIMONIALS

The way our standards have gone high after these workshops have started at our school is phenomenal. I am so happy and convinced that every school should have this programme. This provides direction to the teachers on where they are going wrong and how can they improve. All the best to this wonderful team!

Mrs. Punita Nehru
Principal
Sri Sathya Sai Vidya Vihar
Indore

I found this CPD Programme to be excellent because of its continuity. The year-long connect has helped the teachers to create better strategies and improve the way of teaching. The way the teachers are responding to this programme is also excellent.

Mr. Ashutosh Tripathi
Director
Krishna Public School
Raipur

Teachers are being guided and trained in the classes and the feedback given to the teachers is fabulous. I am very delighted to have this CPD programme in our school and we are seeing tremendous results of it.

Ms. Jyoti Arora
Principal,
Mt. Abu Public School
Delhi

It has made me conscious about the time management. It has allowed me to give much more than I would, in a period. It has also helped in realising that activities are not time wasters, instead, it helps save time.

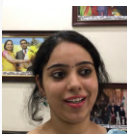

Mrs. Shubdha Pancholi
TGT, Sri Sathya Sai Vidya Vihar Indore

I believe learning gets precipitated only if it is analysed and activity oriented, practical learning. I am sure that these trainings will help us make our classrooms more active and interesting.

Mr. Debvrata Mitra
Vice Principal, St. Xavier's School, Hazaribag

I have number of activities in my mind, I just take the topic and think which particular activity is going to suit and I apply it. The smile that I see on my kids face gives me the feedback that I am doing something. On teacher's front I feel more energetic by the day end.

Ms. Parul Arora
TGT
Mt. Abu Public School
Delhi

This programme has changed a lot of learning which happens in my classroom. Earlier it was more passive and now it is more active. Students are waiting for me to enter the class and conduct activities. Students' self study has also increased.

Ms. Deepshikha Ramwani
TGT
Krishna Public School
Raipur

Due to this programme we are way ahead in terms of the implementation of guidelines issued in the NEP document. All in all it is a holistic approach to sharpen teachers' skills and turning them into facilitators which is highly recommended for educational institutions with a progressive outlook.

Ms. Ritu Gupta
Co-ordinator - Maharaja
Agarsain Public School
Delhi
